

Two Camera Demo Kit

Description

The Fike Video Analytics System provides complete video, flame, smoke and intrusion detection. It provides a critical advantage for early warning fire detection, identifying and reacting to fire situations in their earliest stages, and protecting lives and property. Key features include:

- Detects Smoke or Flame in seconds
- Supplies vital, situational live video to remote locations
- Triggers fire alarm systems
- Provides recorded video forensic evidence for fire investigations
- Recorded video can be downloaded in .wmv or .axm format
- Provides video surveillance capabilities

Fike offers a complete demonstration kit to meet all your training and sales promotion needs on this exciting video detection product. The demo kit is a perfect way for you to familiarize yourself with the system setup, configuration, and overall capabilities of the system. The demo kit can be setup in a matter of minutes providing a great sales tool to demonstrate the benefits of this revolutionary technology to customers and architect and engineering firms through live fire demonstrations.

Features

- Excellent training tool
- Sales and demonstration tool
- Quick setup
- All necessary components supplied
- Travel case for ease of storing and transporting
