

REGIN Smoke Cartridges

Description

REGIN S105 smoke cartridges are an economical and practical method of generating a realistic swirling, non-toxic smoke with a particle size of .3-2.5 microns. The smoke contains no zinc or oil and leaves behind no residue. This premium product is the best tool for testing the cameras used on a Fike Video Analytics system. With increasing emphasis on environmental and safety issues, this is an invaluable, practical and economical tool. REGIN Smoke Cartridges are extremely stable and have a long shelf life of up to 2 years.
